

## Konstruktor consortium: top bidder in highway tender

Mark Pullen - 13.04.2009

The Montenegrin Government has confirmed that negotiations on the construction and concession of the Bar-Boljare Highway will be launched with the Konstruktor consortium.

According to a government statement, the Commission for the Evaluation of Bids and Negotiation in the Procedure of Competitive Tendering for the Bar-Boljare Highway identified the Konstruktor consortium as the best of the four bidders.

The highway will be constructed through a public-private partnership that will include designing, financing, constructing, managing and maintaining the highway.

The concession agreement will be signed for a period of 30 years, after which the highway will become the property of the state.
